- In this I work on a many Project's, like **Ecommerce** Jewelry website as well as **Admin panel**. I learn many things like dispatch in redux, authorization and more.
- In Learn new things, Like firebase, tailwind Css(basic).
- Tender Form:- In the tender form I learn many new things like loading, pagination, validation and more.

Web Developer Aug 2023 – Dec 2023
Eviox Technology Pvt Ltd Noida

- This is a unpaid internship, In this internship I work on a **Open Source** Projects.

Projects

Flipkart Ecommerce Clone | *React.js, MongoDB, Express.js, Node.js, Mongoose, Git, Redux, Material UI, CSS* ,

- This MERN project serves as a testament to my skills and problem-solving capacity. Throughout its development, I embraced challenges as opportunities to learn and grow. Facing various obstacles, I persisted and demonstrated resilience, refusing to give up until solutions were found.

Personal Portfolio | *MERN, JWT(Authentication), Framer Motion (animation), Routes* ,

- In my Personal Portfolio project, I emphasized secure user authentication by implementing JWT. Utilizing the MERN stack, I created a comprehensive showcase of my skills and experiences. Framer Motion was integrated to enhance visual appeal and interactivity through dynamic animations. Meticulous route management ensured a seamless navigation flow, allowing visitors to effortlessly explore the content.
